Local solutions to local challenges!

Playground in Berd

Goal

The town of Berd needs a place to provide children with a happy childhood. The Berd kindergarteners spend their playtime restricted indoors while their families struggle with poverty. Building a playground will provide the children a safe outdoor area to exercise, develop mentally, and to have fun.

Objectives

Build a playground at the kindergarten N:4
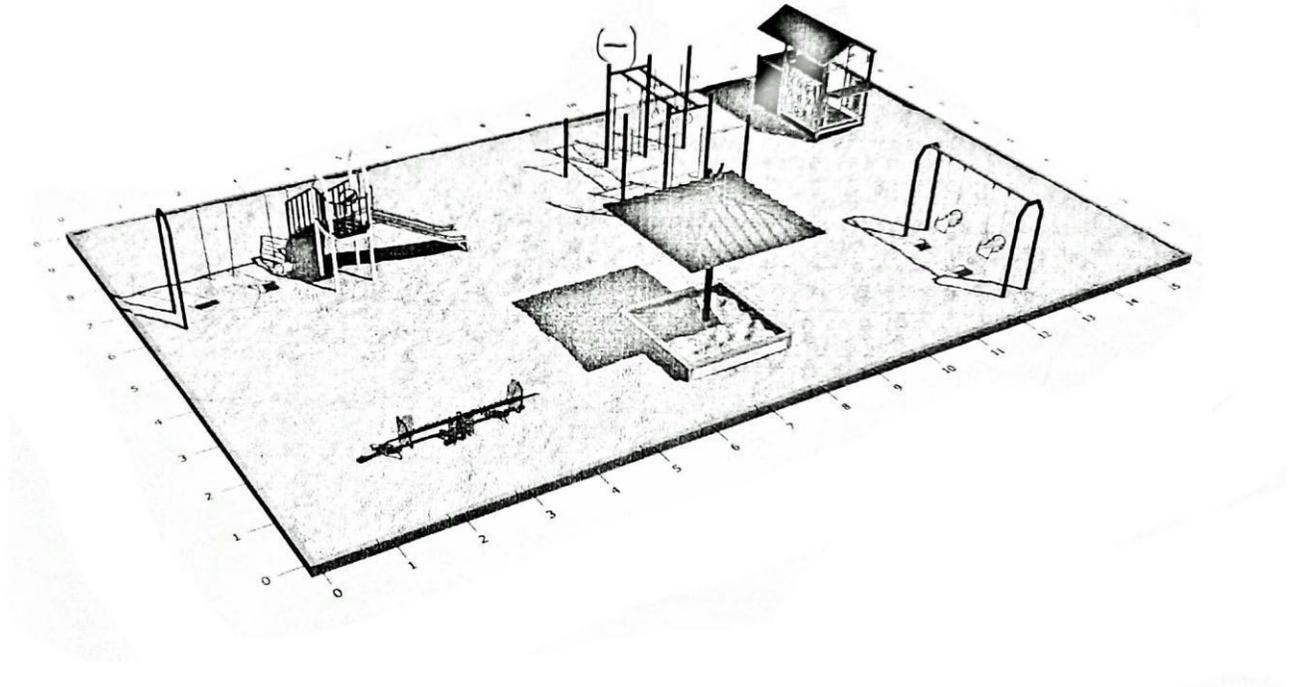

Project Background

The playground project serves to provide a safe outdoor area for children at a kindergarten in the town of Berd to play and have recreational time. Children between the ages of two and six spend their playtime restricted indoors in their classrooms. It is important that they spend their time outdoors in order to exercise, develop mentally, and to have fun.

People living in the town of Berd struggle to provide their families with a good standard of living. With the implementation of this project, 122 children will have the freedom to play outdoors. This school needs the help to provide the children with a happy childhood – one filled with a place to play out their imagination and enjoy being children. Say Ayo! to game time, say Ayo! to happiness.

Budget

Prototype of the playground.

Total funds needed $4,600.

Amendments:

The municipality of Berd in the Tavush Region is not only happy to cooperate with Ayo! but they also want to support our project in a broader way. According to their generous offer, slight amendments have been made to our project plan, which will enable Ayo!'s Playground Project to serve all 700 children who live in Berd, including the 122 kids who attend the #3 Kindergarten.* The changes will be as follows:

1. To build the new playground in the city's downtown park at 26/1 Mashtots Street, Berd City, which will be open to the public.
2. The old playground at the above address be disassembled, refurbished by the municipality, and reconstructed on the grounds of the #3 Kindergarten.

We've adjusted the name of Berd's Kindergarten, which was previously listed incorrectly as #4 Kindergarten instead of #3.
