We are so grateful and proud to announce that our **Breathe Freely** murals have finally been completed all over Yerevan, yet their effects are only beginning to be felt!

Our initiative sought to address pervasive smoking among Yerevan adults by hosting Armenia's top street artists to paint murals throughout Yerevan that bring awareness to the harmful effects of second-hand smoke.

Breathe Freely received incredible feedback from residents in Yerevan and Armenian news agencies, including coverage by [Armtimes](#), [Youth.am](#), and [Noyan Tapan](#)!
