First Aid Kits**	6	₴32,500	\$68.25	\$409.50
TOTAL				\$21,039.56

* Thanks to the generosity of George Asadourian, a dear, longtime friend of FAR and its Continuing Medical Education Program (CME), Ayo! received an in-kind donation of five defibrillators at a total value of \$20,000! One of the defibrillators is designed for trainings only and was used to train the medical staff at Tavush region.

** The \$1,051 we raised thanks to your support covered the purchase of stretchers and first aid kits for hospitals in three villages: Nerqin Karmir, Movses, and Aygedzor as a bonus. The purchase was made in AMD on July 29th, the exchange rate \$1 was 476.13.

Due to the generous support of the professionals at Fund for Armenian Relief, we transported the devices to each of the hospitals and held training sessions with the medical staff at Tavush region completely free of charge. As always, we sincerely thank FAR for their care and support!
