

KITCHENWARE FOR 3 SOUP KITCHENS

Goals

To improve the conditions of 3 soup kitchens run by FAR and continue to meet the nutritional needs of the elderly in a dignified manner.

Objectives

- To purchase and install an electric oven for the Berd soup kitchen.
- To purchase plates, cups, utensils, and tablecloths for Berd, Gyumri, and Yerevan soup kitchens.

Project Description & Background

Malnutrition is significantly spread among the vulnerable groups of Armenia's population, including the elderly. To address the problem, FAR has initiated an elderly nutrition assistance program since 1995. The program benefits men and women of retirement age who are disabled, unemployed, or have no family members to support them.

Every weekday, soup kitchens within the program provide a nutritious meal consisting of soup, a main course, bread, and juice or tea to every single beneficiary. Three soup kitchens in Berd, Gyumri, and Yerevan are lacking enough kitchenware to ensure a dignified meal to 500 elderly who seek help. In addition, the Berd soup kitchen needs a new replacement oven that is vital in cooking the nutritious meals. The purchase of replacement kitchenware for the soup kitchens and an electric oven for the Berd soup kitchen will allow the soup kitchens to enable the elderly men and women of Armenia lead a life of dignity and respect.

Budget

ITEM	QTY	UNIT PRICE AMD	TOTAL AMD	TOTAL USD
Plates	610	705	430,050	\$1,075.13
Spoons and Forks	550	113	62,150	\$155.38
